**Please Note:** Please plan to be 15 minutes early on the first day of camp to review our camp policies and procedures with a camp administrator. If you are signing up for multiple camps, please attend the first day of the first camp session. We keep your paperwork on file for each subsequent camp, and when needed, will advise you of any changes.

Health World is a not-for-profit health and safety outreach education organization, serving schools and children in greater Chicagoland.

The private schools and public school districts (15, 54, 59, 95 and 220) that helped distribute this brochure neither recommend, endorse or sponsor this program or organization. Distribution of informational materials is for the convenience of district students and families and does not imply endorsement by these districts.

# Health World 2010 Summer Camp

## Adventure and Quest Camp Themes

### **Bug Investigators (June 14-18)**

Net some bugs and investigate insects at this week's camp. Using tools of the trade, campers will discover bugs' hideouts and habits, eateries and environments, behaviors and bragging rights. Camouflage is encouraged for maximum backyard bug exploration!

### **Rock Out! (June 21-25)**

Learn about geology, volcanoes and dinosaurs in this rockin' session. Campers will classify types of rocks, create a working volcano, smash geodes, make chalk, and explore the wonderful world of dinosaurs. It's a blast to the past that your child won't want to miss.

### **Space Maze (July 12-16)**

Experience a whole new alien adventure. Filled with amazing missions surrounding the planets and stars, this session is sure to be an out-of-this world encounter with space. Campers will build rockets and/or robots, taste space food and study the solar system. 10, 9, 8... blast off!

### **Outdoor/Retro Art (July 19-23)**

Bring the outdoors inside and yesterday back. This camp session features art projects using recycled materials and items from nature. Your youngster will be introduced to childhood ideas that never grow old such as string art, paper mache, tie-dye and more. If you crave camp like it was when you were a kid, this session is for you.

### **Gizmos and Gadgets (July 26-30)**

Create some crazy, cool contraptions and other fun stuff during this week at camp. Ball blasters, double loop flyers and tops that spin are just some of the items your young inventor will make. Armed with a how-to book, campers go home with ideas for a whole summer of construction.

### **Crazy Chemistry (Aug 2-6)**

Explore what happens when two cupboard ingredients meet each other for the first time. In this hands-on session, your child will experiment with basic chemistry concepts and be encouraged to create messes in the name of science. And just to ensure the fun doesn't stop there, a book of experiments goes home with each camper at the end of the week.

*Miss Frizzle's Greatest Adventures will be featured one day of each session and will coincide with the theme of the week. Thanks to the collaborative efforts of Health World with organizations, such as the Illinois Commerce Commission, Illinois Fire Safety Alliance and Metra, each of our camps also will highlight an interactive exhibit on general health and/or train and fire safety. While our camp themes are the same for both Adventure and Quest campers, some of the activities and projects listed above may change due to age-appropriateness.*

A special thanks to our sponsors, who share in part Health World's mission to educate all children about health and safety:

## Registration Form

### CONTACT INFORMATION

(One registration form per child. Please fill out this form completely and print clearly. Two additional forms will be emailed to you along with your registration confirmation. These forms must be on file by the first day of camp for your child.)
